

River Gorge Explorer

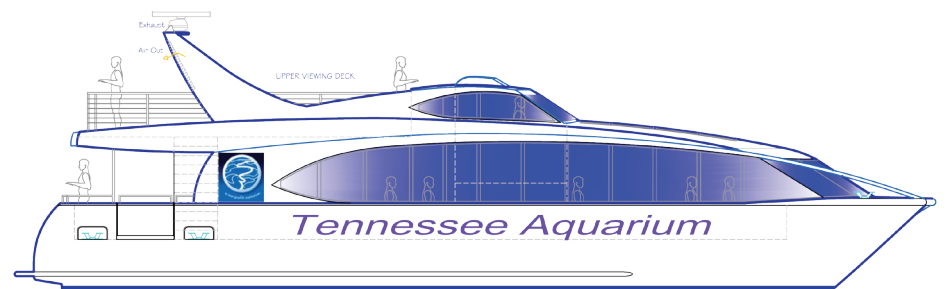

Fast Facts

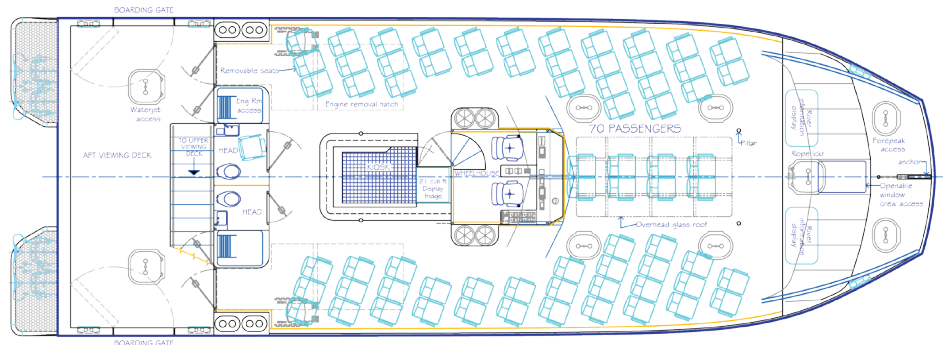

The Tennessee Aquarium in Chattanooga, Tennessee has contracted with All American Marine to construct a new high speed tour boat. The Tennessee Aquarium is located along the banks of the Tennessee River and is a major attraction, featuring an IMAX theatre, fresh and saltwater aquarium exhibits, and river tours. The Aquarium's new 65' Teknicraft catamaran will comfortably seat 70 passengers and will whisk them through the Tennessee Gorge at 50 mph. The vessel features angled seating so each passenger can easily see out the windows or through the overhead sky panes. An onboard concession kiosk has been crafted to offer guests refreshments. Views of the gorge can also be enjoyed from the upper observation deck with 360 degree unobstructed viewing potential.
